

Fact Sheet: Tandem Professorship

Do you work in academics and have extensive teaching and research experience at a university? Does your goal of obtaining a professorship in your subject area feel like it is getting farther and farther away? You know, though, that your path in teaching and research doesn't have to end here? Do you like to work on and research specific solutions for practical problems with industrial and practical relevance? Do you make use of cooperative partnerships and would you like to pass on your knowledge? Do you see points of contact for your research at the leading research university for applied sciences in Rhineland-Palatinate: at Trier University of Applied Sciences?

Then the new Tandem Professorship at Trier University of Applied Sciences is just the thing for you.

With a Tandem Professorship, you can make up 50% of your missing practical work experience with one of the university's industrial cooperation partners and, at the same time, use 50% of your time for teaching and research at Trier University of Applied Sciences. The Tandem Professorship is remunerated according to W1 (50%). It is a temporary employment contract under private law for a maximum of 3 years. After the Tandem Professorship has expired, the position can be transformed into a full-time professorship.

Your Benefits:

- Good prospects at a university of applied sciences
- Preserve the ability to be appointed with a maximum of 3 years of professional experience
